CVT-18

VAP Membrane

DESCRIPTION:

CVT-18 is made of nylon with PU coating on one side. It is air permeable and resin impermeable, suitable for vacuum bagging processes.

TECHNIACAL DATA:

Item	Standard	Test Criteria
Material	PA6 peel ply + PU coating	---
Thickness	0.18±0.03mm	GB/T 6672
Area Weight	120g/m^2 ±5g/m^2	ISO 9073-1
Air Permeability	≥1.5L/m2/s	ISO 9237：1995
Hydraulic Resistance	≥ 8000mmH20	ISO811:2018
Max Use Temperature	160℃	ASTM D 3418

Notes:

(1) Standard size: 1.47m*100m/ roll. Other widths can be customized.

(2) Storage condition: Stored in original packaging under cool&dry environment.
